REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: among the cited references, Okuyama (US 2006/0094393), Ichitsubo (US 2004/0232982) and Ichitsubo (US 2005/0205986) are closest to the claimed invention of independent claims 1 and 11. Okuyama (US 2006/0094393), Ichitsubo (US 2004/0232982) and Ichitsubo (US 2005/0205986) all disclose a front-end module for multi-band and multi-mode wireless network system, comprising two antennas, two diplexers, a diversity switch, filters, and two baluns. However, they either alone or in combination, fail to disclose or render obvious the claimed invention. More specifically, Okuyama discloses that the diplexers 11 and 12 (see figure 4) each has a BPF and a LPF, while the claim requires each of the diplexers has a HPF and a LPF. In addition, Okuyama is not a prior art against the claimed invention because Okuyama has a later filing date. Ichitsubo (US 2004/0232982) and Ichitsubo (US 2005/0205986) both fail to disclose or render obvious each of the components and their connections as specified in the claims.

None of other cited prior art cures the above deficiencies in Okuyama (US 2006/0094393), Ichitsubo (US 2004/0232982) and Ichitsubo (US 2005/0205986).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
